3.14 Dividend equalization reserve:

Divisible profit is transferred to Dividend Equalization Reserve on rational basis based on the decision of the Board of Trustee to ensure reasonable dividend from Year to Year.

3.15 Provision for unrealized losses on marketable investments

In order to meet any future unforeseen diminution in the value of the investment portfolio over the cost, the management has established a policy of making provisions. Such provision is created on a lump-sum basis when satisfactory unit performance is ensured and transferred to income on a rational basis subsequently, if required, to ensure consistent distribution of dividends at a reasonable rate even in the bear market scenario.

3.16 Pricing of units

Units issued are recorded at the offer price, determined by the Fund for the applications received during business hours on that date/week. The offer price represents the Net Asset Value per unit (NAV) as of the close of the business day of each week plus the allowable difference between sale and repurchase prices (at present Tk 0.30 only). Units redeemed are recorded at the redemption price. The redemption price represents Net Asset Value (NAV). Systematic investment plan (SIP) & cumulative investment plan (CIP) investor get Tk 0.10 less than the regular price.

3.17 Net asset value (NAV) per unit

The unit fund calculates Net asset value per share using the cost and market value, which has been shown on the face of Statement of Financial Position, and the computation of NAV per unit is stated on basis of (Note 18 and 19).

3.18 Earnings per unit

The unit fund calculates Earnings per unit (EPU) in accordance with IAS 33. Earnings Per Share, which has been shown on the face of the statement of Profit or Loss and other Comprehensive Income.
